

EI CONTROLS MERGES WITH SUNBELT CONTROLS

JULY 1, 2011 - SAN LEANDRO, CA – EI Controls is pleased to announce its merger with Sunbelt Controls, a leading full-service building automation contractor, effective immediately. Moving forward, all EI Controls business will be conducted as Sunbelt Controls, Enterprise Integration Division.

With branch offices in Northern and Southern California, Seattle and Las Vegas, Sunbelt Controls is the largest independent Automated Logic Controls carrier/dealer on the West Coast. In addition, we are also a licensed dealer for Ingersol Rand/Trane Controls in Southern California.

Although EI Controls will now be doing business as Sunbelt Controls, operations will continue with the same management team and systems engineers. This merger supports Sunbelt Controls' growth initiatives with regard to project size, geographic coverage and markets served.

Sunbelt Controls, Enterprise Integration Division, will continue to provide the best enterprise solutions for building systems integration, and will dramatically expand its Tridium/Vykon product distribution geographically throughout the Western States.

“By merging with Sunbelt Controls we have the opportunity and support to execute larger projects, bonding and any/other necessary resources to further meet the needs of our valued customers,” said Josh Reding, Enterprise Integration Division Leader.

About Sunbelt Controls

Sunbelt Controls is a leading full-service building automation systems integrator for new construction and retrofit projects in the Western United States. Sunbelt Controls entered the building controls market more than 30 years ago and has expanded its service by providing complete, fully integrated, single source solutions ranging from engineering applications and automated control systems to design assistance, sustainable maintenance service and retro-commissioning. Sunbelt Controls is a wholly owned subsidiary of ACCO Engineered Systems and can be found online at www.sunbeltcontrols.com.
