

SUNBELT CONTROLS INTRODUCES CORY MCKNIGHT AS SAN DIEGO SALES MANAGER

Leading Building Automation Contractor Expands Local Workforce

OCTOBER 2, 2013 – SAN DIEGO, CA – [Sunbelt Controls](#), a leading building automation controls contractor, has further expanded its local workforce by hiring Cory McKnight to lead its San Diego team. With more than 10 years of sales, engineering, and project management experience in the HVAC and building automation industries, McKnight complements Sunbelt Controls' expansion into the San Diego market.

Sunbelt Controls specializes in environmental controls for commercial buildings across all vertical markets, with heavy focus on system integration and retrofit solutions. The dynamic growth of Sunbelt Controls' San Diego team is due to the recent acquisition of Integrated Energy Solutions.

"Since joining forces with IES, Sunbelt Controls has recognized the need for a sales management star that could provide strategic direction across all vertical markets. Cory brings that energy and expertise to our established sales team," said Bob Hamill, vice president. "His work in the education and healthcare industries fits our team nicely, and his experience in energy solutions brings further value to our customers."

McKnight holds a bachelor's degree in Mechanical Engineering from Boise State University.

About Sunbelt Controls

Sunbelt Controls is a leading full-service building automation systems integrator for new construction and retrofit projects in the Western United States. Sunbelt Controls entered the building controls market more than 30 years ago and has expanded its service by providing complete, fully integrated, single source solutions ranging from automated control systems to design assistance, sustainable maintenance service, and retro-commissioning.
