

SUNBELT CONTROLS INTRODUCES GREG CLEMENTE AS BAY AREA OPERATIONS MANAGER

Leading Building Automation Contractor Expands Local Workforce

January 13, 2014 – Pleasanton, CA – Sunbelt Controls, a leading building automation controls contractor, has further enhanced its local management by hiring Greg Clemente.

With more than 17 years project engineering and operations management experience in the HVAC and building automation industries, Greg is a great addition to our team in the Bay Area. Greg holds a Mechanical Engineering Degree from Cal Pol San Luis Obispo.

Sunbelt Controls specializes in environmental controls for facilities across all vertical markets, with heavy focus on system integration and retrofit solutions.

About Sunbelt Controls

Sunbelt Controls is a leading full-service building automation integrator for new construction and retrofit projects in the Western United States. Sunbelt Controls entered the building controls market more than 30 years ago and has expanded its service by providing complete, fully integrated, single source solutions ranging from automated control systems to design assistance, sustainable maintenance service and retro-commissioning.
