

SUNBELT CONTROLS LAUNCHES EPARTS WEBSITE FOR NEW, REPLACEMENT, AND SPARE HVAC PARTS

Offers more than 140 million products from over 120 well-known industry brands

JANUARY 26, 2016 – PLEASANTON, CA – [Sunbelt Controls](http://SunbeltControls.com), is excited to announce the launch of sunbeltcontrols-eparts.com, a best-in-class, one-stop online resource for HVAC and building automation parts.

On the new website, Sunbelt customers can easily browse through more than 140 million products from over 120 well-known industry brands. Purchasing any type of part - with wide varieties of options, sizes and attributes - is quick and simple, allowing customers to have parts drop-shipped anywhere they want.

Related to the move into ecommerce, Stephanie McCurley joins Sunbelt Controls as its eParts Sales Representative. Stephanie will use her experience with account management, parts sales, and customer relationship development to promote this new e-commerce offering.

The new sunbeltcontrols-eparts.com website and dedicated sales representation will help our customers save time and money when they need spare and replacement parts. It's another example of how Sunbelt Controls brings value to its customers through emerging technologies and professional solutions.

About Sunbelt Controls

Sunbelt Controls is a leading full-service building automation systems integrator for new construction and retrofit projects in the Western United States. Sunbelt Controls entered the building controls market more than 30 years ago and has expanded its service by providing complete, fully integrated, single source solutions ranging from engineering applications and automated control systems to design assistance, sustainable maintenance service, and retro-commissioning.
